Project Timeline

From desire to completion

A successful interior design project is built on clear structures, intensive communication and thoughtful planning.

We support you from the initial idea to the final implementation through a holistic and transparent process.

ASSESSMENT & INITIAL CONSULTATION

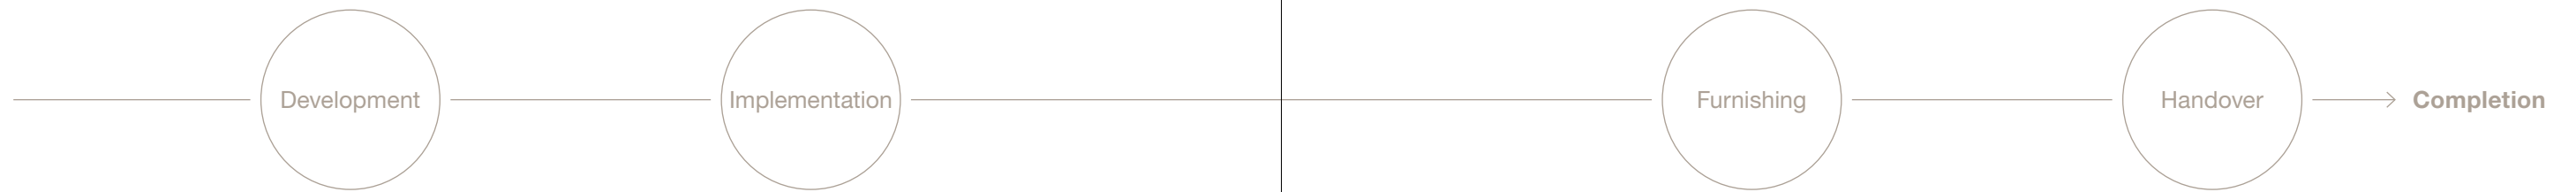

Understanding what truly matters.

An initial sense of the project, the client's needs and the design direction. In a personal meeting on-site or in our showroom, we clarify expectations, desires, functional requirements and aesthetic preferences. We analyse the architectural conditions, define project goals and establish timelines.

CONCEPT & DESIGN

Developing ideas, evaluating spaces.

A coherent, holistic design concept as the foundation for all further steps. We create a custom interior concept — including 3D visualisations, mood boards and colour and material proposals. In doing so, we take into account architecture, usage patterns and an emotional impact.

INTERIOR DESIGN & DETAIL DEVELOPMENT

From concept to finalised solutions.

A complete and implemented concept foundation. Precise, coordinated, and ready for execution. Once the design is approved, we move into technical and design detailing: furniture layouts, specification of materials and finishes, lighting plans, technical drawings, detailed plans for built-ins and coordination with external planners.

IMPLEMENTATION & PROJECT MANAGEMENT

Turning design into reality.

High-quality spaces, realised exactly as planned, with a single point of contact for everything. We oversee the entire construction process, coordinate trades, monitor execution quality and ensure an on time hand over and budget planning. Regular site visits and detailed reports guarantee a smooth project flow.

FURNISHING & FINAL TOUCHES

Details make the difference.

A space that is not just finished but complete and ready to live in or use immediately. We take care of the completion: furniture, lighting, curtains, rugs and art. Upon request, we also provide on-site styling and decoration to ensure everything feels complete.

HANDOVER & AFTERCARE

Responsibility until to the end — and beyond.

Even after final hand over, we will remain your point of contact: for fine-tuning, care recommendations or future additions. Our customer service does not end with the handover — that's where it begins.
